Manual for NEDES Smart Application
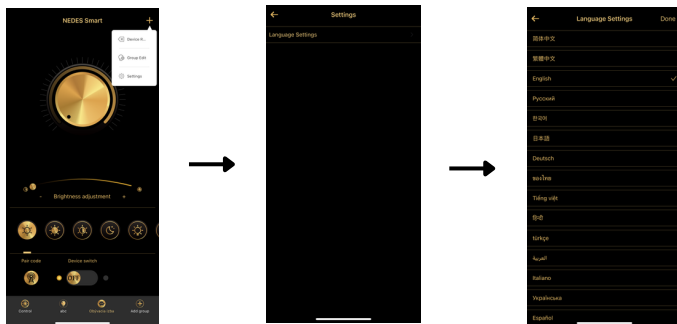

NEDES Smart is a mobile application specifically designed for controlling lighting. Through this app, you can control functions such as turning the lights on/off, adjusting brightness, color temperature, and more.

1. Downloading the application

The application can be downloaded from the APP STORE or GOOGLE PLAY.

2. Use

After downloading the app, click on the "**+**" button in the top right corner. Then go to "**Settings**," select "**Language Settings**," and choose the language you want to use in the app.

### 3. Pairing the light with the app

Press the **pairing** button within 6 seconds after turning on the light. Once the light blinks, the pairing is complete.

4. Creating Groups / Rooms

Press the "**Add Group**" button, then select "**New**" and enter the **name of the group/room.** Pair the lights (follow the pairing procedure in section 3) that you want to include in the **group/room**. This function allows you to control multiple lights at once.
*During each pairing, only turn on the lights you want to pair, while all other lights must be turned off.

Managing Groups/Rooms: Click the "**+**" button in the upper right corner, then select "**Edit Group**." After opening the group, you can modify the name or delete the group.

4. Unpairing the light

Click the "**+**" button in the upper right corner, ➡"**Remove**," ➡**Confirm**.
